

BIG COMPANY FORMED

Wealthy Syndicate Will Operate in Utah Mines.

FAR REACHING PLANS

COPPER STRIKE REPORTED IN AMERICAN FORK CANYON.

Chicago Men Confident They Have a World-beater There—Boaring Lion in Park City to Be Operated Again—Dalton & Lark Deal Is Still Hanging Fire.

For the past several days a gentleman representing a powerful syndicate of eastern capitalists has been in close communication with G. B. Peyton, arranging the details of organization of a big mining investment company which will operate in Utah and other mining sections of the west.

Regarding the scheme, Mr. Peyton said yesterday that preliminary action had been taken during his trip east last spring, and now a plan of organization had been practically arranged and the company would be ready for business inside of thirty days. The company will be incorporated in New York, with a capital of \$1,000,000, with shares of a par value of \$100 each, and the object of the company will be to secure control of some mines and minor company stocks as the corporation decides will prove paying investments. A heavy percentage of the capital stock has already been subscribed, and Mr. Peyton declares that by the time the company has secured its charter it will be prepared to hop onto anything good in the way of mining propositions, either in Utah or elsewhere.

"The company has been formed," said Mr. Peyton, "with the idea that concentrated capital can be more profitably invested than if the same amount is handled in separate sums by many individuals. We are organizing with some of the strongest financial talent in the country and with a set of practical, competent men as officers and directors. The best experts in the country will be employed to make examinations of all propositions in which the company may seek investment or to which its attention is invited, and we believe in this way we can earn bigger interest on the capital of the stockholders than they could hope to make in any other field open to capital in this country."

This operation of the big company contemplates getting control of dividend-paying mines and stocks as well as investments in properties which only need the touch of capital to bring them to the front, and where, occasionally, an investment may prove unprofitable—something which is liable to happen in any line of business—it is expected that enough of the company's investments will pay good returns to more than offset any failure which might possibly occur. That Mr. Peyton declares, is the strong point in the main incentive behind the formation of this corporation.

While the main offices of the company will be in the east, local branches will be established at points where money is to be done, and Mr. Peyton will be in charge of the Utah offices and act as the company's agent at this point.

BIG COPPER STRIKE

American Fork Canyon the Place of Discovery.

One of the biggest copper strikes that has been made in Utah was uncovered a short time ago in American Fork canyon, a few miles from American Fork city. The claims are owned by A. and J. Bateson of Chicago, and they have given the ground a very thorough survey in the past few years. They have known that the claims carried copper, and they have exploited it thoroughly for copper results. J. Bateson, who has been in the ground right along, wired his brother ten days ago to come out, as, in his estimation, he had found results that proved to him they had a bonanza.

A. Bateson is a Chicago capitalist of vast means and has been engaged in the lumber business in Chicago for upwards of forty years. He responded to the call, and last night returned from the mine. He stated that there was a bonanza of copper, and that an average of assays showed that it would run 8 to 10 per cent.

"We have not shipped any ore, and do not intend to," said Mr. Bateson. "We will build a smelter and handle our own product. I believe we have the biggest lot of copper that has ever been discovered. We have an entire mountain of it, and it is all on the surface. No! We don't want any outside capital. We are in no way interested in ourselves. We have 15,000 feet of patented lands down there."

WILL OPERATE ROARING LION.

An Old Park City Mine to Be Systematically Worked.

Sam Levy gave it out yesterday that he had secured the assistance of Chicago and Colorado capital and that by the 15th of September operations at the Roaring Lion property, which lies close under the best developed portion of the Crescent mine, would be commenced. The Roaring Lion has produced several thousands of dollars' worth of ore in years gone by, but the owners—Sam Levy and Barney Riley of Park City—have never been able to equip and handle the proposition as they knew it should be, but now, with ample capital behind them and a splendid vein of ore in the mine, it is in no way probable when the property will again be producing.

A hotel and pumping plant will be installed and the mine will be worked for an energetic winter's campaign. The mine has been opened by an incline, which is down some 350 feet on the vein, and very little stoping has yet been done.

NO DECISION YET.

Dalton & Lark Deal Still Hanging Fire.

While the sampling of the Dalton & Lark has been made and arrangements looking to the closing of the deal with Jeremiah Schenck have been under way for several days, no conclusion has yet been arrived at, and it is just possible that it may fall through. Mr. C. O. Whittemore, who is negotiating the sale, said last evening that if Mr. Schenck would grant a concession or two that would in no way detract from the price to be paid or the terms touching the sale, he thought everything would go through all right. But Mr. Schenck, he believed, would decline to help the business along, so he really did not know yet how it would terminate.

ORE IN THE WREXIM.

A Rich Vein Said to Have Been Opened in It.

Very encouraging reports have been received from the Wrexim mine, in Big Cottonwood canyon, owned by Thomas R. Jones and Thomas Miller, the latter the veteran foundryman of this city. Mr. Jones has secured the property for the past twenty years. A few years ago it was joined by Mr. Miller in the enterprise, and since that time they have pushed development work during the summer months.

The mine is developed by shafts and cross-cuts. A depth of 200 feet has been attained, and in a drift run from that level in one of the shafts, a new body

Mining Stock Market

Yesterday's Volume of Business Exceeded That of Monday.

DAISY SOME STRONGER

GEYSER-MARION SHOWS MORE IMPROVEMENT.

Dalton & Lark Active—Mammoth Records a Slight Decline—Northern Light Was in Demand at Lower Figures—Bidding For Grand Central Stock.

The volume of business on the stock exchange was considerably better yesterday, but there was little improvement in the range of prices. Daisy was stronger and showed a tendency to recover recent losses. Daly was in demand and was sold at \$1.38 and \$1.40. Geyser-Marion did some better, higher bid than it did on Monday. The stock seemed to be plentiful, there being too much of it in evidence to sustain prices. Buyers saw really no reason for being so nervous and conveniently absorb.

SELLS FOR \$5,000.

Part of the Falco Group Goes to the Yosemite No. 1 People.

The details of a transaction which transfers the Mississippi claim, one of the Falco group, which adjoins the Yosemite No. 1 on the west, were arranged in this city yesterday. The deal was negotiated by U. A. Falco, and the grant named in the deed is Selma Stanley, while the purchaser is E. W. Genter of the Utah Loan & Savings company and one of the owners of the Yosemite No. 1. The deed will be signed on the arrival of Mrs. Stanley from this city.

A drift is now being run from the 100 level of the Yosemite to explore the Mississippi ground, which it is believed contains a ledge of lead ore.

The money derived from the sale of the Mississippi, it is understood, will be used to develop the other ground embraced in the Falco, so the deal is one which redounds to the benefit of both parties.

CENTENNIAL-EUREKA AMENDS.

Makes Possible a Sale of All Its Properties.

Amended articles of incorporation for the Centennial-Eureka Mining company were filed in the county clerk's office yesterday. The amendment provides that "the business and pursuits of the corporation shall be to carry on a general mining business, including mining and reducing mineral ores and selling the same or their products, and for such purposes to acquire by purchase or otherwise and work and operate any and all mines, claims, lodes, and other reduction works, with water appliances, water rights and ways and all properties, easements, and interests necessary or convenient to the business. Also to sell at any time any or all of its properties upon the authorization or ratification of the capital stock, not less than two-thirds of its capital stock."

BOND GIVEN UP.

Option on Several Bingham Claims For \$75,000.

By an agreement filed for record yesterday, George Hardie of Chicago gave up his bond and lease on the Northern Light, Grizzly and Fairview claims, in the Bingham district, to Thomas H. Cavanaugh of Olympia, Wash., and Dr. T. B. Beatty of Salt Lake own the properties. The bond and lease were dated Feb. 5, 1898, and were for \$5,000.

Black Pine Mining Company.

(Special Correspondence.)

Ogden, Aug. 29.—The Black Pine Mining company was incorporated today in Ogden, the incorporators being as follows:

F. W. Little, and Alice V. Little, Pleasant Hill, Mo.; E. E. Stevens, Mary C. Stevens and Edna Stevens, Ogden, Utah. The amount of capital stock is \$100,000 at \$1 per share.

F. W. Little owns 25,000 shares, E. E. Stevens 5,000, and each other shareholder 1,000 shares. F. W. Little is president, Alice V. Little vice president, E. E. Stevens secretary and treasurer. Each of the stockholders is a director. Ogden is the principal place of business of the corporation. The properties of the company are in Blackhawk mining district, Lemhi county, Idaho, and comprise the Cross Cut, the Black Pine, Black Pine Extension, No. 1 fraction. Half the capital stock is reserved as treasury stock.

Ore and Bullion.

Ore and bullion settlements in this city yesterday amounted to \$52,300, as follows:

T. R. Jones & Co., ores, \$18,600; bullion, \$12,000.

McCormick & Co., silver and lead ores, \$2,400.

Barnberger & McMillan, ores, \$9,500.

Commercial National bank, ores, \$1,800.

Metal Market.

Silver, 50 1/2 per ounce.

Lead, 4 1/2 per 100 pounds.

Copper, 15c per pound.

Mining Notes.

Judge J. T. McConnell came up from Price last evening.

Manager P. T. Farnsworth was out at the Dalton & Lark yesterday.

Bone Wheeler of the South Swansea directory came up from Tintic night before last.

Six cars of ore from Tintic and one from Idaho were received at the Conklin smelter yesterday.

George Dera went out to Bingham yesterday to inspect operations at the West Mountain placer.

The Swansea will post its regular dividend of \$5,000 within the next 70 days. The South Swansea will do likewise.

The Taylor & Brunton sampling mill was in receipt of fifteen cars of ore from Tintic and one from Fish Springs yesterday.

E. H. Buchanan, manager of the Picnic property at Silver City, is down from the mine for a short time. He expects the drift belt to intercept the Park vein as being in some 250 feet, and from the indications in the face he thinks it is not far off now.

WORK OF THE LAWYERS.

Proceedings of the Bar Association at Buffalo Yesterday.

Buffalo, N. Y., Aug. 29.—When the American Bar association resumed its session today the aldermanic chamber of the city hall was filled with distinguished delegates and lawyers of note from different sections of the country who had assembled to listen to the address of Senator William Lindsay of Kentucky.

Several new members of the association were elected today, prominent among them being John G. Milburn, president of the Pan-American exposition committee.

The committee on commercial law made its report, and promised to report next year upon the subject of involuntary bankruptcy. It was the opinion of the committee that the new bankruptcy law should be generally supported by bench and bar.

The recommendation of the committee on international law, in favor of international arbitration, was unanimously adopted. The committee on grievance offered a resolution of sympathy with Maitre Labori, the defender of Dreyfus, but it was tabled on a close vote.

The committee on law reporting recommended that law reporters form an association, in order to secure uniformity of style in law reporting.

At the afternoon session Sir William R. Kennedy, a justice of the high court of justice of England, was introduced and delivered an address on "State Punishment of Crime."

Kodol Dyspepsia Cure cures dyspepsia because its ingredients are such that it can't help doing so. "The public can rely upon it as a master remedy for all disorders arising from imperfect digestion."—James M. Thomas, M. D., in American Journal of Health, N. Y. C. Schramm, prescription druggist, corner Main and First South streets.

REPORT OF THE CARTER CASE.

Attorney General Griggs May Soon Render His Decision.

Washington, Aug. 29.—Attorney General Griggs is expected to return to Washington tomorrow but it is possible that he may not reach here until next Monday. No one knows when the attorney general will make his report to the president on the Carter case, although there are persistent intimations that it will be made soon.

There is some ground for the belief that the attorney general's report, when it is forthcoming, will be much broader than has heretofore been intimated. It is said in some quarters that it will not only deal with the case of Captain Carter as shown by the record, but will point out the connection of others with the case and direct special attention to them. This, if it proves true, will account for the long period the attorney general has given to the case.

The record is accordingly voluminous and the labor and time involved in its examination simply in its bearing on Captain Carter alone would be immense. Following out its ramifications as to others would require much additional labor and time.

The best medicine money can buy for impure blood, nervousness, and all stomach and kidney troubles is Hood's Sarsaparilla.
